

## Press release No. 4

### The best rally simulator in the world is part of rally "Sliven" 2017

The recently announced for one of the best rally simulators in the world PT Racing Simulator is a part of the 2017 Rally "Sliven". Rally sport and computer simulating fans can test the unique qualities of the machine during the days of the race. PT Racing Simulator is located in the service park of the vent on "Georgi Danchev" boulevard.

The unique machine, which gives the ability to any person to test his rally pilot skills in the most real terms and conditions is invented by the bulgarian specialist Borislav Bogdanov. PT Racing Simulator was special guest on Rally "Germany", which is a world championship round in the end of August and it was tested by some of the best rally pilots in the world. They were very pleased by the dynamics and the real like graphics of the simulator.

PT Racing Simulator gives the player the ability to race in completely, in virtual reality through VR glasses, realistic rally steering wheel, gear stick, pedals and hydraulic hand brake.
